MONEY, STOCKS AND GRAIN

Deacon White Once More on 'Change and Western Union Advances Above Par.

At New York More Activity Was Shown and Much Wholesome Strength-At Indianapolis Wheat Was Weak-Corn and Oats Dull.

THE BOND MARKET.

Bailroad Issues Very Much Less Animated than the Share List.

At New York, yesterday, money on call was easy, ranging from 1½ to 2 per cent., the last loan being made at 2 per cent.,

Prime mercantile paper, 34 @54 per cent.
Sterling exchange was quiet but steady at \$4.864 for sixty-day bills and \$4.88 for de-

mand.
The total sales of stocks were 177,906 shares, including the following: Atchison, 10,500; Chicago Gas, 3,300; Erie, 5,600; Louisville & Nashville, 2,150; Manhattan, 9,150; Northern Pacific preferred, 3,300; Reading, 14,900; St. Paul, 11,350; Union Pacific, 4,700;

Western Union, 15,482. The rise in silver, which would seem to indicate that the late decline really had its origin in speculative operations, and the action of the Treasury in paying gold for silver notes, went a long ways toward encouraging buying of securities in the stock market to-day, but there was no new business in sight, and the demand from the shorts, limited as it was, was sufticient to advance prices all along the line. One of the features of the day was the crossing of par by Western Union, which was predicted some time ago. The industrials continued to absorb the greater part of the strength of the market, and the Cordage stock and the Electric were both conspicuous for advances. Among the specialties Manhattan was spurted up rapidly on an increased business, and To-ledo, Ann Arbor & North Michigan among the low-priced shares made a sub-stantial gain. The general list, however, was as dult as usual, and, while sympathizing with the advances in the leaders, was held within extremely narrow limits throughout the day. The opening was dull and steady, but there was no pressure to sell, and some new buying appeared, which stimulated covering of shorts, especially in the grangers, and, while the return of Mr. S. V. White to the street may have been the cause of the strength in Manhattan, Western Union and some of the industrials with which he has of late been closely identified, there was buying of other specialties by the insiders and a liberal sprinkling of ontside purchases, altogether giving the market the most decidedly strong appearance it has presented in many days. The rise in the grangers under the steady demand assumed large proportions late in the day, were, as a rule, the best of the day. The general list, apart from the stocks mentioned, presented no feature of note, but the firm temper kept things moving all through the session. While most stocks are only slightly higher than Monday even-

was more active and strong at the top figures.

Railroad bonds were less animated, and failed to share in the strength of the share list, neither activity nor movement marking the dealings. Burlington, Cedar Rapids & Northern tirsts rose 4, to 1054, but the active issues were held no more than steady. The transactions in stocks reached 157,522 listed and 20,384 unlisted, Western Union leading with 15,482.

ing, the material gains in the leaders gave

the tone to the whole market. The close

PORK THE STAR MARKET

Provisions Were Fairly Active and Relieved the Gloomy Grain Aspect.

Weaker Cables Caused Wheat to Open a Point Lower, and Before the Lay Was Over It Had Dropped Another Point on Poor Demand.

TRADING AT CHICAGO.

Corn and Oats Fared No Better than the Weak Leading Cereal. CHICAGO, Aug. 16 .- The grain markets on the Board of Trade were easier to-day. The fluctuations were confined to a narrow range and closed near the lowest figures. Provisions, on the other hand, were fairly active and stronger, and, after fluctuating within a very moderate range, closed at about the top. The news of the day in grains was not particularly significant, but most of it was bearish, and sufficed to make all of the leading cereals heavy. In the wheat pit weaker cables caused the market to open a point lower. This was supplemented by cables showing an increase of 2,000,000 bushels in the English visible supply and a more favorable showing as to the Russian crop. Then New York and St. Louis were free sellers, and there was little support from local or outside points. In addition to this there were continued heavy receipts at winter-wheat points, and the weather was clear and warm, with a high temperature, confined mostly to the Dakotas. The reason given for the noted decline of 4@4 penny at Liverpool was that the American wheat supply exceeds the demand. Moreover, English weather was reported better, with an improvement in the condition of the erop, which was reported at 66,000,000 bushels, against 78,000,000 bushels, and the Russian crop was officially given as 280,000,-000 bushels. About the only grain of comfort for the bears was a decrease of 784,000 bushels in the amount on ocean passage. September opened &c lower, at 771/2c, gradnally weakened to 77c and closed at 77 se.

There was much activity in the corn crowd. Many of the big longs had previously sold out, and the market lacked snap. Good weather and favorable crop reports tended to check any upward movement, and the weakness in wheat gave it a sympathetic downward tendency, except near the opening. September opened 4c lower at 52%c, sold up to 52%c, selling down to and closing at 524c.

Oats were fairly active, but, as in wheat and corn, were weak, and closed

a loss of 4c, compared with yesterday's

Provisions were higher on the light receipts and poor quality of hogs and the advance of 10@15c in the value of good lots. September pork opened 5c higher at \$12.40, and sold between \$12.32½ and \$12.45, and closed at the top. Lard was especially strong on the advance in prices at Liverpool and the half-fatted quality of the receipts. It opened .07½c higher.jat 8.05c and closed at 8.12½c.

To cure children of biting and spoiling their nails, make a very thick solution of gum-arabic, much thicker than for common mucilage and mix with it a liberal supply of powdered quinine. Apply this to the child's fingers at night and two or three times during the day, and the habit will immediately be broken up. The same remedy is very efficacious in cases where children suck their thumbs.

Journal

DAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspaper. Its primary object is to publish the news, and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a news paper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

DAILY JOURNAL

A WEEK

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.

That satisfies the most exacting taste.

The same reasons that call for the im mediate extension of the the daily cir culation apply to the weekly. This is carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doctrine.
